

Love, Sex and Awakening

An Introduction to Margot Anand's SkyDancing Tantra

Margot Anand, is called the "voice of the origins" as she was the first to bring Tantra to the West in the seventies. Margot Anand, pioneer of Western Tantra, is an internationally acclaimed author, public speaker, teacher and founder of nine SkyDancing Tantra Institutes worldwide. Her books - The Art of Sexual Ecstasy and The Art of Everyday Ecstasy (and more) have sold a million copies worldwide. In her newest book, Love, Sex and Awakening she recounts her tantric initiations, and fascinating adventures and explores the answers to profound questions: What is Tantra? What does a woman need to realize her multi-orgasmic nature? What does it mean for a man to be a Tantric lover? What are the keys to a good love life? What is the connection between sexuality and spirituality? What is awakening?

"We start now, where we are. And we examine our love life. And we transform it into a sacred, juicy, powerful, ecstatic event. And we move that energy into the transcendence of meditation. When I lead the Tantra groups for the first time, at the Osho Commune in 1979, it was under the direct guidance from Osho. It was wild, deep, and revealing. These stories are in my new book, Love, Sex and awakening."

We'll practice touch and bodywork rituals that transform sex into a high art integrating meditation, verbal and non-verbal communication, yoga and massage. Couples are welcome to practice more intimate exercises in the privacy of their own space.
